

3 Courses

Introduction to the Biology
of Cancer

Understanding Cancer
Metastasis

Understanding Prostate
Cancer

Aug 28, 2022

Joshua Okolo

has successfully completed the online, non-credit Specialization

Cancer Biology

Congratulations! You have completed all three courses of Cancer Biology - a Johns Hopkins University Specialization. As part of this Specialization, you have learned the essential skills and concepts of cancer biology, including an introduction to cancer, cancer metastasis, and prostate cancer risk factors. You are now equipped to apply a deeper understanding of cancer biology in your work, having learnt about the theories of metastasis, cancer staging and treatment, current prostate cancer screening guidelines and treatments, and much more!

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Sarah Amend
Postdoctoral Research
Fellow
The James Buchanan
Brady Urological
Institute

Kenneth J. Pienta, M.D.
The Donald S. Coffey
Professor of Urology
Professor of Oncology
The James Buchanan
