

3 Courses

Medical Terminology I

Medical Terminology II

Medical Terminology III

Sep 5, 2022

Joshua Okolo

has successfully completed the online, non-credit Specialization

Medical Terminology

This specialization is intended for anybody that is interested in developing skills in medical language or preparing for further studies in the medical field. Learners will be able to identify common prefixes, suffixes, roots and abbreviations so they can recognize most medical terms used by medical professionals. Learners will also have an understanding of the structure of an electronic health record and extract vital information from it. Moreover, learners will gain basic knowledge of the anatomy and diagnoses related to all 10 main organ systems.

Laura S. Kabiri, PT, DPT,
PhD, CSCS

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
